

Co-funded by the
Europe for Citizens Programme
of the European Union

TEPSA is glad to announce that it has launched a new website section called “**TEPSA Voices**”. In this section TEPSA will provide easily understandable explanations on topical EU issues (such as migration, climate/energy, economic policies and external relations).

TESA Voices will be now available on the TEPSA website and will be composed of two different sections: **TEPSA Explainers** and **TEPSA Briefs**. In the first section you will find short videos while in the second section short briefs addressing European and national issues by researchers from TEPSA Member Institutes will be published.
