THE FUTURE OF EU-TURKEY RELATIONS: MAPPING DYNAMICS AND TESTING SCENARIOS

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement No 692976.

The first EU 28 Country Reports are now available on the [FEUTURE website](#). The reports, based on a common questionnaire, aim to map the debates and perceptions on EU-Turkey relations in the 28 EU Member States.

Turkish EU membership is a highly contested issue in the individual EU Member States. Therefore, the FEUTURE research design analyses and reflects these variances of the national debates in the “EU 28 Country Reports” , which form part of Work Package 1 “Conceptual and Analytical tool-kit”.

The general aim of these reports is to provide in depth information on the EU’s perception of EU-Turkey relations in all 28 EU Member States.

The EU 28 Country Reports were completed before the Turkish Constitutional Referendum on 16 April 2017. Thus, the reports does not take account of any potential changes in the national debate that might have occurred in the meantime.
